

Survey: raising children to teenagers

By Raising Children Network

In 2010, the Raising Children website will expand the age range it covers – to provide helpful tools and resources about raising children in the middle childhood and early teen years. We encourage everyone to have a say on the expansion and the topics you'd like to see covered, by filling in our feedback survey.

Please choose one of the surveys below. If you have more than one child, choose the survey that matches the age of your oldest child. Your responses are completely confidential and anonymous to allow you to answer the questions honestly.

Professionals working with children and their families can offer written feedback by [email](#), or complete one of the surveys below.

- If your oldest child is 0-8 years old, please [complete this survey](#) (6 mins) with only that child in mind.
- If your oldest child is nine years or older, please [complete this survey](#) (9 mins) with only that child in mind.

Thank you for taking the time to provide your feedback. Your responses will help us make the Raising Children website an even better resource.
